TURKISH-ITALIAN PEACE IS NEAR

The Turkish Milltary Attache in Berlin, Enver Bey, hastened to the theatre of war, organized the troops, enlisted Arabs and worked miracles of valor. It is his improvised little army which has hindered the Italians from taking the provinces dur-

ing these eleven months. Will this heroic Arab band allow peace to be made on terms which it deems dishonorable and by men who are but lukewarm followers of the prophet? Probably not. Judging by what we know of their attitude they are minded to continue the struggle even after peace has been formally signed by the Porte. That is the statement which an intimate friend of Enver Bey in Derna has put forward. And it has the ring of genuineness about it. I read it in the Egyptian newspapers which are in touch with the Turkish commander. And I had the tidings confirmed in Stamboul by

The note will declare that the action is nothing undone to increase his popularity. In parts of Tripoli and of the cases his heralds proclaim that the Grand Mahdi, Enver Bey, appeared to the American policy in Nicaragua during the last two months, which has been the object of much criticism among certain Democrats of the Senage in control of the Government. This will be the first case his heralds proclaim that the Grand Mahdi, Enver Bey, appeared to them in a vision and girt their foins with sacred swords. If therefore he were resolved to continue his resistance to the Turks after the peace he would have an enthusiastic following.
